\* Shared ownership added to coding in 1997, note that from 1998 to 2000 the questionnaire suggests a completely different coding system including 6=squatting, but we have no evidence that this was used in the data.

† The Date of First record field is corrupted, possibly due to transfer from one file system to another. We cannot be certain that the day and month are correct, but the year should be re-set if you wish to make use of this field.
